Our Holy Father
Pope Paul VI

"Be positive, be builders of the new world, for which technical and scientific progress can prepare us. In other words: instead of hating and cursing the society in which Providence placed our life, let us try to understand it, to serve it, to heal it, and to love it. Give serenity, hope, vigor and joy to your thougnts, precisely as Christian education teaches us to do."

Jax!
It sure has been a ball knowing you this year. Success will be a snap with your personality. Good luck in all your ambitions—

the Lord turn his regard towards thee,
and give thee peace.

Jan:

Well, I guess this year is coming to a fast close. I can't believe how fast this year has flown by and the three years that have passed. Now all are high school memories are behind us instead of ahead us. Always remember all the fun wine had during these years. The nights we went to a hot party given by a bunch of Sanitaman Boy! we sure left just in time! (what luck) your car didn't help matters that night first we got stuck on Linda Vista Road trying to catch up with dear old Fred) then on the bridge going back to the party (what a driver) I am surprised we haven't got into some disaster I don't think I will ever forget our Senior Prom. "What a night" if only Fred would of read Emily Post before going to dinner and only if I would of had a mouse trap to catch his tongue especially when Father Brickhaus was there then he would probably use "sign language"). All I can say is that we hope that we will be able to continue our friendship in the future days ahead of us and continue

Fellow Students:

Here we are at the end of another year and another yearbook. I would like to thank my staff, who for the past seven months have spent study halls, afternoons, evenings and even holidays to make possible the production of Cathedral '65.

But most of all, I would like to give thanks to both Sister Mary Bertrand and to Sister Adrienne Clare. Without their help this annual would have been completely impossible.

Pebbles

Well Jax, our time has finally come! The day we have so anxiously looked forward to is just a few days off. Graduation, the prom, ditch day - all of them have come and gone so quickly. This is one year none of us will ever forget - least of all US! We've gone through an awful lot these past nine months. It's a wonder how so much could have happened in so little time. We've really had alot of fun as well as alot of troubles. I'll always remember the dances, trips to Mesa, parties, A.S.B. dance, problems, tears, joys and laughs we've shared together. I'm glad we've gotten to know each other as well as we have. I hope I gave you at least a little bit of good advice when you were so depressed. I'm really happy now for you and Shan. I'll pray for you both often. Remember me in your prayers too! Best of luck in all your future years. Stay happy and remember me!

Love, luck and happiness,

"Pebbles" 1965

just think where we'll be next year. You'll be an aunt for the first time - that part is ensured - And I'll be married I guess - Will not guess I will be. Who would have thought it - Not me !!!

Dawn you are very dear to me ever - since the very first time I met you. You are really a darling girl with a personality to match. I hope you have the most wonderful ~~[redacted]~~ future

Sandi, I don't tell you what a wonderful person you've been to me ever - since the very first time I met you. You are really a darling girl with a personality to match. I hope you have the most wonderful future

always we are friends. You've been my friend sister and my best friend and it means a lot to me and I hope to you —

Jan:

It's been a long year in some way like all studying we never did and so short in others like Astro, [redacted], JSSD, Wachie, 15 feet at North Bird and all the other wild things that have happened. Always remember the long talks we've had, about Jay, Steve, Shari, Stan and look how it all turned out.

I hope that all your try works out for the best like school, Shari, marriage, babies.

We've come along way since that Peter and Gordon Riot during the summer. I'm glad we've been friends because I think we both have been a great help to each other - Friendship means alot. I'm
